SHOWN WITH SUNSHIELD

**Total Automation Works**  
**Orlando, Florida**  
**(407) 493.2355**

**PerfectPressurePump.com**

## RUGGED & RELIABLE

- Featuring all powder coated aluminum and stainless steel construction.
- Waterproof made to withstand the harshest environment.
- Totally sealed prevents insects from nesting.
- No plastic to crack in the sun or keypads to fail.
- Perfect for salt air, inside and outside air never mix.

## BETTER DESIGN

- Free upgradeable software. \*
- No PC needed, no cables.
- No bulky bladder tank required, fast, accurate response.
- Simple to operate, set the knob to desired pressure & you are done.

## SMART

- Advanced software detects flow without the need of a flow sensor.
- Pressure sensor with our "Predictive PID" software quickly responds to demand changes.
- The pump turns on when demand is needed, off when it is not.
- "Anti-cavitate" and "Head Extension" algorithms provide added performance.
- Can be mounted indoors or outdoors.
- Ties into water supply where it enters the home.
- Runs on 220V or 110V with optional transformer. Single or three phase.
- Boost pressure adjustable from 10 - 65 PSI.
- 3 sizes available, 22, 32 or 80 GPM.
- Works on well, tank or city water.
- Duplex & Triplex pump skids available.
- Inquire about customs.
